Live for the unexpected

▶ Inspired by alternative thinking, the Nissan MURANO represents a landmark in the evolution of vehicles incorporating elegant styling and cutting edge technology. The Nissan MURANO boasts safety, aesthetic and performance features that enhance your driving experience beyond expectations.

Not everyone leads a single-lane life. So why have a single purpose car? Our crossovers are like the people we make them for: resourceful and comfortable with the unconventional and a can-do attitude.

The Nissan MURANO is our sophisticated crossover; multi-talented, urbanproof and able to take change in its stride. So when the unexpected arrives, you're more than ready.

So, gear up for the next stage of auto-engineering and prepare to be inspired.

Premium Driving experience

All of Nissan's cutting edge technological innovations and features have been incorporated to ensure that your driving experience is unbeatable and unforgettable.

IT KEEPS ON COMING

With over a thousand different vehicle velocity and engine speed patterns stored in its memory, the Nissan MURANO'S Xtronic CVT can select the right combination for any road, making gear shifting and acceleration seamless. With improved fuel efficiency, you can expect the Nissan MURANO to take you further.

LOW SPEED AGILITY, HIGH SPEED STABILITY

Power assistance for the Nissan MURANO'S steering is greater at low speeds and reduces as you go faster due to the Twin Opening vehicle speed sensing Power Steering (TOPS) system. So in-town manoeuvres become easy and lane changing is secure and precise.

The underside of Nissan MURANO is also aerodynamically sculpted. Improvement on the underfloor airflow not only saves fuel, but also improves stability. The Nissan MURANO delivers a serene and calming environment as a result of innovative noise reduction measures and class leading aerodynamics.

Dynamic sporty Performance

Combining the superior high driving position views of an SUV with the agility and stability of a sedan, the Nissan MURANO delivers beyond expectations on its multi-purpose capabilities. The intelligent grip of ALL MODE 4x4-i and the smile-inducing power of our 3.5 litre V6 engine – as used in our legendary 350Z sports car – generates a startling sense of confidence as you cruise through the city streets.

LINEAR RESPONSES ARE EASIEST TO CONTROL

Our aim with the Nissan MURANO was to make it comfortably controllable in all situations. So the power steering is light to the fingertips when parking and firms up as you accelerate. Its speed sensitive steering takes the effort out of tight bends, while its new suspension reduces body roll and makes even harsh surfaces plain sailing.

The new Xtronic CVT delivers acceleration as a smooth, seamless flow. The brake pedal becomes progressively firmer at higher speeds, meaning you can fully immerse yourself in the exhilarating drive and still feel relaxed and in control.

ALL-MODE 4x4-i

4x4-intelligence thinks its way out of difficult situations. It senses each wheel's grip on the road and sends the appropriate amount of torque to that wheel, ensuring that where you direct the steering wheel is exactly where you'll go. It's just another feature highlighting the Nissan MURANO'S instinct, innovation, intense driving pleasure, as well as incredibly safe and impressive capabilities.

Sleek Bold Beautiful

The Nissan MURANO is sleek yet muscular, thanks to the emphasis on the design of its curves. From the advanced projector headlamp to the sculptured taillights, you can trace the bold strong line that gives the Nissan MURANO its grace and elegance. Its dynamic image is achieved by a blend of sweeping broad surfaces and assertive curved edges. Large 18" alloy wheels pushed out at each corner gives the Nissan MURANO a strong stable stance and its body flows tightly around wheel arches, giving a clear hint at the gripping drive that awaits you.

Each projector headlamp provides powerful, penetrating illumination and a large lit area using a single reflector and high efficiency Bi-Xenon technology. The taillights wrapped around the Nissan MURANO'S sides and rear are not merely for effect, the high efficiency LEDs make them brilliantly visible, even from afar.

Luxurious & Versatile

BEIGE INTERIOR NOT AVAILABLE
IN SOUTH AFRICA

▶ A friendly welcome enriches the soul. Unlock the door and you're welcomed into the warm glow of the Nissan MURANO'S luxurious interior. Aluminium, leather and gun metal finish gives the vehicle a contemporary luxurious interior. A stylish glass sunroof features power retractable sunshades and tinted glass for privacy and UV protection. The front panel can also be tilted up or slid back to let in fresh air. One touch of the button by the driver's seat or on the key opens or closes the tailgate automatically.

▶ An anti-pinch safeguard ensures fingers don't get trapped or luggage squashed. Rear seats fold down at the pull of a handle in the luggage area and automatically lifts up at the touch of a single button. The Nissan MURANO transforms from an opulent lounge to a practical load carrier in seconds with minimum effort even when your hands are full.

Clever technology

NISSAN PREMIUM CONNECT SYSTEM

40GB HDD Satellite Navigation System

- 7" WVGA high resolution display and touch screen monitor
- High quality user interface

iPOD COMPATIBILITY

Plug your iPod into this available interface system and you can control its functions through the audio system.

SURROUND YOURSELF

With a state-of-the-art BOSE® audio system you are enveloped in the output of 11 strategically positioned hi-fi quality speakers

Entertainment System

- DVD video playback
- 9.3 GB HDD music server which can store up to 3000 songs
- Auxiliary audio/video input jacks

NISSAN INTELLIGENT KEY

Never take your keys out your pocket or briefcase again. Nissan Intelligent Key is so intuitive; it senses your approach to the car and allows you to unlock the door by just tapping the button on the handle. Once inside, start the engine without ever putting a key in the ignition.

MORE TECHNOLOGY FOR EASY LIVING

- Dual zone climate control allows separate settings for driver and passenger
- Drive computer with multiple functions including remaining fuel range, average speed, fuel consumption and outside temperature
- Steering wheel switches for cruise control and audio

uncompromised Safety

Vehicle Dynamic Control (VDC) adds responsiveness and dynamism that makes ALL MODE 4x4-i a major technological innovation, providing optimum handling.

In addition to the ALL MODE 4x4-i, which effectively distributes the appropriate amount of torque to each wheel, the Nissan MURANO abounds with safety features for your peace of mind.

CONTROL AT EACH CORNER

Slippery corners hold no fear with VDC. Integrated with 4-wheel drive, Anti-lock Braking System (ABS) and sensors that are in touch with all of the Nissan MURANO'S vital functions, the system ensures that your input at the steering wheel is matched by what happens on the road.

STOP SAFER

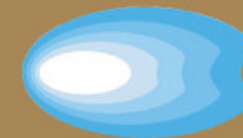

Brake Assist (BA) senses emergency braking and automatically applies maximum braking. Electronic Brake force Distribution (EBD) matches front and rear brake effort to weight distribution throughout the Nissan MURANO while ABS prevents the wheels locking up so you can still steer safely in a skid situation.

TOUGH YET GENTLE

High strength steel gives the Nissan MURANO an exceptionally tough outer shell. Inside, the Advanced AirBag System (Driver, passenger, side and curtain) cushions any impact with multiple airbags. Even the seat belts are designed to be more comfortable without compromising protection. Added to this the Nissan MURANO comes standard with ISOFIX anchors for a child's car seat.

Safety Shield

In the commitment to "Real World Safety", Nissan pursues innovation as part of its Safety Shield concept. Based on the idea that cars should help protect people, advanced, proactive safety technologies help driver and passengers to avoid danger and injury in a wide range of circumstances. NISSAN'S COMMITMENT TO QUALITY :

To provide all customers with a consistently high level of quality, Nissan applies the same standards worldwide, to ensure that all Nissan owners enjoy peace of mind for the lifespan of their vehicles. The approach is based on quality from the customer's perspective on three key elements. First, the expectation of a smooth driving experience with complete peace of mind. Second, the intangible appeal of a vehicle, its power to captivate and excite, with features that capture attention and imagination. Third, the level of attentiveness and service during the sales process, and long after the sale is concluded.

NISSAN'S COMMITMENT TO THE ENVIRONMENT

Nissan's environmental philosophy embraces people, vehicles and nature. In the pursuit of a sustainable mobile society, the Nissan Green Program aims to reduce the environmental impact of Nissan vehicles at every stage of the vehicle life cycle, while corporate activities address environmental challenges. The Nissan LEAF which is the world's first and currently only mass-produced 100% electric vehicle requires no fuel and has zero emission, is just another step that we have taken to show our true commitment to the environment

MODEL	MURANO 3.5 V6 4WD	
Seating capacity		5
ENGINE		
Cam design		DOHC 24-valve V6 engine
No. of cylinders, configuration		6, V6
Valves		4 valves per cylinder
Engine capacity	cc	3498
Max. engine power	kW@rpm	191@6000
Max. torque	Nm@rpm	336@4400
Max. speed	km/h	210
Compression ratio		10.3:1
Fuel type		Unleaded petrol
Fuel supply		ECCS, electronic fuel injection control
Fuel injection		Multipoint
CO2 emissions level	g/km	261
DRIVE TRAIN		
Drive configuration		Intelligent ALL MODE 4X4-i with electronic 4WD selection & Lock mode
Transmission		X-Tronic Continuously Variable Transmission (CVT) with selectable 6-speed manual mode
Gear ratio		2.371 - 0.439
Reverse		1.766
Final Drive ratio		5.173
CHASSIS		
Suspension	front	Independent strut suspension with stabilizer bar
	rear	Multi-link independent suspension
Steering		Vehicle speed sensitive hydraulics power steering Electronic telescopic & tilt adjust
PERFORMANCE		
Fuel consumption urban cycle	l/100km	14.9
Fuel consumption extra-urban cycle	l/100km	8.6
Fuel consumption combined cycle	l/100km	10.9
Acceleration 0-100km/h	sec	8

Service plan		5 year / 90 000 km
Maintenance plan (optional)		5 year / 90 000 km
Warranty and Roadside Assistance		3 year / 100 000 km
Paint and mechanical warranty		3 year / 100 000 km
Anti-corrosion warranty		3 year unlimited kilometres

Quoted fuel consumption and emission values have been established using the prescribed method of measurement (United Nations Economic Commission for Europe "ECE" Regulation R101 in the current version) as required under current legislation. This data does not pertain to the specific vehicle and does not comprise part of the offer, but is supplied for the purpose of comparison between the various types of vehicle, in accordance with 1999/94/EC.

Driving behaviour / conditions and other non-technical factors contribute towards a vehicle's fuel consumption and CO2 emissions over and above the determined fuel efficiency of a vehicle.
